

2024 RACE PROCEDURES: (subject to modifications for bigger events)

Initial Start / Restarts:

1. All starts and restarts will be on the Green Flag by the Flagman.
2. The front row must maintain Pace Car speed until they reach the designated cones where they will gradually accelerate staying together.
3. At the cones the front row gradually increases speed staying together and will be at speed (out of turn 4) together coming to the start line.
4. At no time does the front row slow after the Pace Car pulls off before coming to green. Front row must stay side by side and at no time should second place lag back or be ahead of the leader before the green waves. Jumping the start will result in a penalty.
5. No passing or pulling out of line allowed until you reach the S/F line. (Does not apply to front row)
6. If a caution occurs before the leader completes the first lap of the race, there will be a complete restart. All cars retain original starting position unless a penalty is issued, they pit or receive assistance from the safety crew. If a car drops out or goes to the rear, all positions simply advance.
7. All restarts will be double file, except for the 2nd attempt at a green/white/checkered. Race Control may call for a single file restart if deemed necessary.
8. All cars one or more laps down restart behind lead lap cars.
9. When 'one to go' or the directive is given to double up, the leader will choose to start inside or outside. Everyone else will double up accordingly. If you pit and are not back in your correct position when the directive to double up is given, you will start on the tail of the field.
10. No scrubbing tires, swerving, brake checking, laying back, or games of any kind will be tolerated coming to the green.

Yellow Flag:

1. When the yellow flag is displayed stop racing, slow, and maintain your single file position with caution.
 2. Only the first caution lap (on the leader) will be counted during each caution period. We do not revert back a lap.
 3. If you are involved, spin, slowed or your progress is disrupted by the incident, you will be positioned where you rejoin or blend back into the field, unless the leader passes you, then you will restart at the tail of the lead lap cars or down cars, depends on if you are the lead lap or not at that point.
- NOTE: The incident must play itself out before the order is set. If you pit and don't rejoin the field in your proper position before the double up directive is given, you will restart at the back of the field.
4. Any discrepancies in line up will be determined by Race Control.
 5. Should a car not maintain caution speed for any reason, stop or enter the pits during a yellow, it will lose its running position. You must maintain your position under yellow and stay nose to tail.
 6. If a driver deliberately picks up positions after the yellow flag is displayed, they will be penalized at minimum two positions.
 7. If a driver does anything to intentionally cause a yellow, it's a minimum two-lap penalty.
 8. No scuffing tires in the area of on-track safety workers, you will only receive one warning before being parked for the rest of the event.
 9. Officials reserve the right to utilize the yellow to check cars that are suspect and are being considered for a black flag (leaks, smoke or sparks, etc.). After they are checked, if okay - they keep their position.
 10. Pit crews are not allowed on the track and drivers may not repair or adjust their cars while on track unless Race Control direct otherwise.
 11. This does not apply within 15 laps of the finish. Last 15 laps will be green flag laps with the initial yellow counting.

Red Flag:

1. Stop in a safe/quick manner—if a car does not re-start on its own, it will be pushed started and maintain position.
2. No work may be done on cars during red flag condition – Unless authorized by race control.
3. Positions will revert back to the previously completed green or yellow flag lap. Those deemed part of the occurrence that caused immediate red flag or cars that pit will be positioned at the rear of the field.

Free Pass Award:

1. On any yellow flag except for the final 15 laps, the first car a lap down based on the last completed green flag lap, will be instructed to fall to the tail of the field and credited back 1 lap. Any car causing or involved in a yellow will not be the recipient of the "Free Pass" and there will be no free pass on that caution.

Lap Cars:

1. Lapped cars must choose the designated lane and not race the leader. Lapped cars must treat all lead lap cars with the same respect.

Finish:

1. Once the white flag is displayed, we are coming to the checkered unless the track is blocked.
2. If we go yellow or red after the leader takes the white, we will finish with a green/white/checkered, with a maximum (2) attempts.
3. On the 2nd attempt at the green/white/checkered - once the field receives the green flag, and crosses the s/f line, the race will be complete if the yellow is displayed, those remaining are to slow and proceed with caution. The remaining cars would be scored in the position they last held at the start finish line minus cars involved in the caution and race is over.
4. Top 5 will go directly to victory lane for trophies and interviews, the driver must stay with the car at all times, driver must drive car to scales and or you will be penalized.

Contact:

1. Any contact between competitors will be determined by Race Control if any penalty will be imposed. If a driver is penalized for rough driving, he/or she will restart at the tail end of the field behind all cars for the immediate restart after the penalty or could be parked for the remainder of event.
2. Any competitor having contact with the race leader, resulting in the leader spinning and or being eliminated from competition will be penalized. Race Control has the right to call over the radio to rescind this policy (before an incident happens) if the leader is considered to be blocking, only by Race Control, in which case the above Rule #1 under Contact will be in force.

Qualifying Policy: You may not drive your car counter on the track prior to taking the green during qualifying – however, you may drive counter if you spin after taking the green, violation will result in the slowest of your two qualifying laps.

ALL TEAMS MUST HAVE A WORKING FIRE EXTINGUISHER IN THEIR PIT STALL AND PIT BOX.
